PERSONALISED SUPPORT, JUST WHERE YOU NEED IT

Back & Forth Feedback - \$50

Have questions about my comments? Want to explain your thinking or talk through solutions together? This service gives us the chance to go back and forth—I'll respond directly to your replies and help you deepen or clarify your revisions without needing to book another full round of editing.

Continuous Read - Priced per word

Finished a beta read or copy edit but made a few updates you'd like a second look at before moving on? This service is perfect for reviewing only the revised scenes or sections. Whether it's light rewrites or polishing new paragraphs, I'll read just those and give tailored feedback—no need to rebook an entire service.

Pricing is based on your original service:

- From a beta read → beta read per-word rate
- From an edit → editing per-word rate

Beat Sheet Breakdown - \$65

I'll map out the key beats I see in your story and send you a clear breakdown of your manuscript's structure. It's a great way to compare how your plot reads from an editorial perspective versus what you intended.

Available only after your Alpha read and first beta round, once the story's had time to take shape.

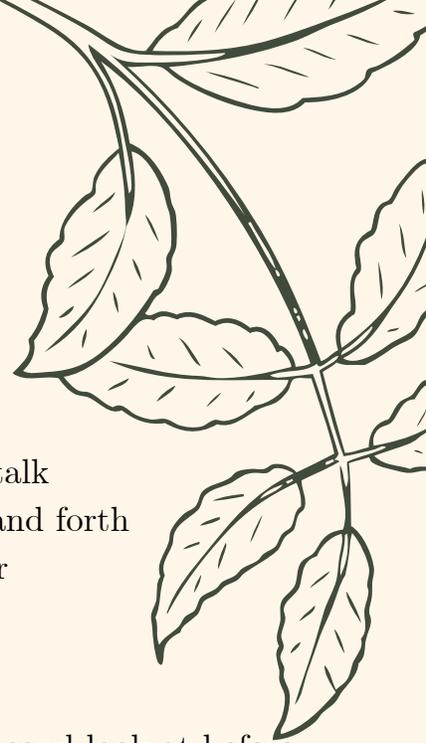

Video Call Consult - \$40 per 30 minutes

I'll map out the key beats I see in your story and send you a clear breakdown of your manuscript, ask questions, or walk through feedback in real time.

Calls are billed in 30-minute increments, but I'm happy to go longer if needed.

Rush Projects - \$200 + Price per word

Things happen, tasks get behind schedule, and your team is blowing up your phone and email trying to figure out if you will be able to get your project on time. We will schedule a quick call to fill me in on what you need and what's going on, then we'll take it from there.
